SW-18CS

FEATURES

- ✓ **Optimized for small room systems**
- ✓ **18" woofer**
- ✓ **One of the narrowest subwoofer available (270 mm depth)**

Designed for smaller cinema requirements, the **SW-18CS** considerably reduces space requirements behind the screen.
Developed especially for cinema use, it provides highly linear bass sound.

As member of the Classic series, this cost effective solution offers reliability, quality and easy installation.

SPECIFICATIONS

	SW-18CS
HARDWARE	
Frequency response (-10dB)[1]	45 Hz
Continuous AES Power[2]	800 W
Continuous Program Power[3]	1600 W
Sensitivity (1w/1m)[4]	96 dB SPL
Rated Maximum SPL (1m)	125 dB
Rated impedance	8 Ω
ENCLOSURE DETAILS	
Dimensions (HxWxD)	825 mm x 750 mm x 270 mm
Net Weight	35 kg

[1]Free field, -10dB from on-axis sensitivity
[2]AES continuous pink noise, 2 hours duration.
[3]Continuous program power is defined as 3 dB greater than AES continuous pink noise and is a conservative expression of the transducer's ability to handle normal music program material.
[4]Average measured free field , 2.83V, 1m
