

SW-18CM

FEATURES

- ✓ Designed for small and medium room systems
- ✓ 18" woofer
- ✓ Cost effective

Developed especially for small and medium sizes cinema rooms, the **SW-18CM** provides extended low frequency needed from cinema requirements. Featuring a low frequency transducers mounted in a direct radiator, it provides a smooth and highly linear bass sound.

As member of the Classic series, this cost effective solution offers reliability, quality and

SPECIFICATIONS

SW-18CM

HARDWARE	
Frequency response (-10dB) ¹	32 Hz
Continuous AES Power ²	800 W
Continuous Program Power ³	1600 W
Sensitivity (1w/1m) ⁴	95 dB SPL
Rated Maximum SPL (1m)	124 dB
Rated impedance	8 Ω
ENCLOSURE DETAILS	
Dimensions (HxWxD)	1000 mm x 750 mm x 360 mm
Net Weight	47 kg

¹Free field, -10dB from on-axis sensitivity

²AES continuous pink noise, 2 hours duration.

³Continuous program power is defined as 3 dB greater than AES continuous pink noise and is a conservative expression of the transducer's ability to handle normal music program material.

⁴Average measured free field , 2.83V, 1m
